

FREMONT COUNTY SHERIFF'S OFFICE  
PRESS RELEASE

The Holiday "Step Wave" will begin November 14 through November 28. The STEP grant will help buy a camera system for one of the patrol vehicles. The camera system that is in the current vehicles are getting to the end of their support. Watch Guard has discontinued the body cameras that we use, and they will discontinue the car cameras in 2024. Support for the system we use will eventually stop. The cost is about five-thousand dollars for the car system and installation per vehicle.

During the Wave the Fremont County Sheriff's Office will be doing several projects with the Iowa State Patrol in the county, including a seatbelt enforcement.

Many times, when we are doing seatbelt enforcement, we hear that wearing one should be "my choice". But not wearing one can have many immediate side effects, death, or disability. Trauma to the family and friends to the loss of a loved one. Along with financial loss and the stability of the household.
